

HaganeRack

**SMART
AISLE
CONTAINMENT**

**Smarter Cooling, Lower Energy
Maximum Performance**

Bundling Complete Set

- Motorized Sliding Tempered Glass Door with Sensor Anti-Pinch
- Drop Ceiling with magnetic lock (have manual release button for maintenance)
- Lamp with Motion Sensor
- Containment Access with LCD Monitor Face Recognizer, Fingerprint, RFID Entrance
- Containment Monitor Controller Power Environment System
- Containment Control Box Integrated with Fire Supression System
- LED Lightning
- Temperature & Humidity Sensor
- Airflow Monitoring
- Anti-Seismic Floor Bracket (Optional)

Available Roof Skylight for CAC :

Single Swing

Double Swing

SMART AISLE CONTAINMENT

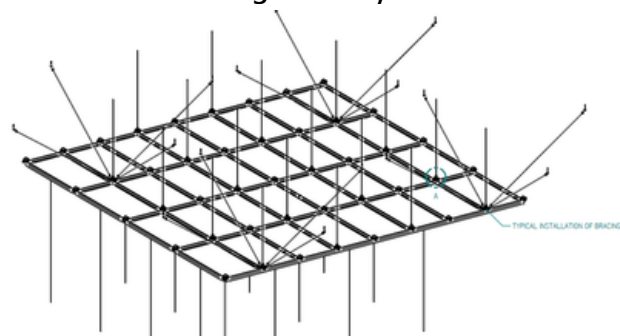

Full Tempered Glass Design

Bundling Complete Set

- Motorized Sliding Tempered Glass Door with Sensor Anti-Pinch
- Chimney Exhaust for Hot Air
- Ceiling Grid for Anti-Seismic
- Lamp with Motion Sensor
- Containment Access with LCD Monitor Face Recognizer, Fingerprint, RFID Entrance
- Containment Monitor Controller Power Environment System
- Containment Control Box Integrated with Fire Supression System
- Blank Cover with Tempered Glass
- LED Lightning
- Temperature & Humidity Sensor
- Airflow Monitoring
- Anti-Seismic Ceiling Grid
- Anti-Seismic Floor Bracket

Ceiling Grid System

SMART COLD AISLE CONTAINMENT

HaganeRack Smart Cold Aisle Containment is designed to maximize cooling efficiency, improve energy savings, and support high-density data center environments.

Energy Efficiency

High Security

Smart Monitoring

Modular Design

- Optimized Airflow
- Lower PUE
- Easy Maintenance
- Future Ready

Smart Monitor Controller System Interface
